An extensive range of options, accessories and upgrades are available due to the custom built nature of these vessels. Please contact us to discuss further additions to your Seacruiser package.

The pride of the Seacruiser fleet is the 7400HT. It's the evolution of the 7000 model with slight re-designs along the way. With the traditional Seacruiser raised bow, it is an imposing presence when on the trailer. Sporting twin engines, an expansive dash able to house a range of electronics, a large hard top for extra protection and built to 2C survey standards, the 7400HT stands alone at the top of the heap.

## PECIFICATIONS

LENGTH	7.45M
HTGIW	2.45M
